

RESI-RC-RTC2-SIO

Our real time clock for on-wall mounting onto a socket outlet. Time synchronization via KNX or RS485 interface and MODBUS/RTU, ASCII or KNX protocol. Additional 12-48Vdc power supply necessary.

<div><div>HOST MODBUS/RTU MASTER ASCII TEXT</div><div>12-48V=<div>RS485</div></div><div></div><div>DATE, TIME, SECONDS YEAR, MONTH, DAY</div><div>Sync via RS485</div></div> <div></div>	RS485 & KNX realtime clock	MODBUS/KNX all common data types supported	DISPLAY date, time, seconds, year, month, day	Synchronisation via KNX or RS485
	Functionality Realtime clock with accu backup with RS485 & KNX interface. External 12-48Vdc power supply necessary. Various display modes: date, time, year, seconds	Interface All 65536 KNX group addresses can be used MODBUS/RTU Slave or ASCII text protocol	DESIGN Various design options available	MODERN DESIGN
	LIBRE OFFICE® free configuration software	On-wall mounting	SIZE 100x235x35mm	12-48V= Power supply
