

# RESI-4DO-SIO

Our powerful IO module for a MODBUS/RTU or ASCII text protocol host with RS232 or RS485 interface. The IO module offers four independent digital outputs for DC signals with external power supply.

<b>Functionality</b> IO module with 4 digital output for DC signals. Common root contact for all four outputs. Each output is protected against thermal overhear and shortcut. Output group is galvanic-ally insulated from rest of module. External power supply for all outputs.
