

RoHS compliance declaration

The manufacturer RESI ® Informatik & Automation GmbH
Altenmarkt 29, A-8551 Wies, AUSTRIA

Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS)

RESI Informatik & Automation GmbH pursues its social responsibility for global environmental preservation!

RESI Informatik & Automation GmbH hereby confirm, that products manufactured by RESI Informatik & Automation GmbH comply with the RoHS Directive 2011/65/EU and the delegated RoHS Directive (EU) 2015/863 of the European Parliament on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

The RoHS Directive restricts the use of the following substances in electrical and electronic equipment above the listed concentration values in homogenous materials:

EU RoHS regulated substances	Threshold *
Cadmium (Cd) – Cadmium Compounds	<100ppm <0.01%
Lead (Ld) - Lead Compounds	<1000ppm <0.1%
Mercury (Hg) – Mercury Compounds	<1000ppm <0.1%
Hexavalent chromium (Cr ⁶⁺) Compounds	<1000ppm <0.1%
Polybrominated biphenyls (PBBs)	<1000ppm <0.1%
Polybrominated diphenyl ethers (PBDEs)	<1000ppm <0.1%
Bis(2-ethylhexyl) phthalate (DEHP)	<1000ppm <0.1%
Butyl benzyl phthalate (BBP)	<1000ppm <0.1%
Dibutyl phthalate (DBP)	<1000ppm <0.1%
Diisobutyl phthalate (DIBP)	<1000ppm <0.1%

*Threshold does not apply to applications covered by a RoHS substance exemption.

All our products has been checked and determined compliant following the actions suggested by the relevant harmonized standard EN IEC 63000.
